

# Mise en oeuvre de modules LORA 32. Partie 1

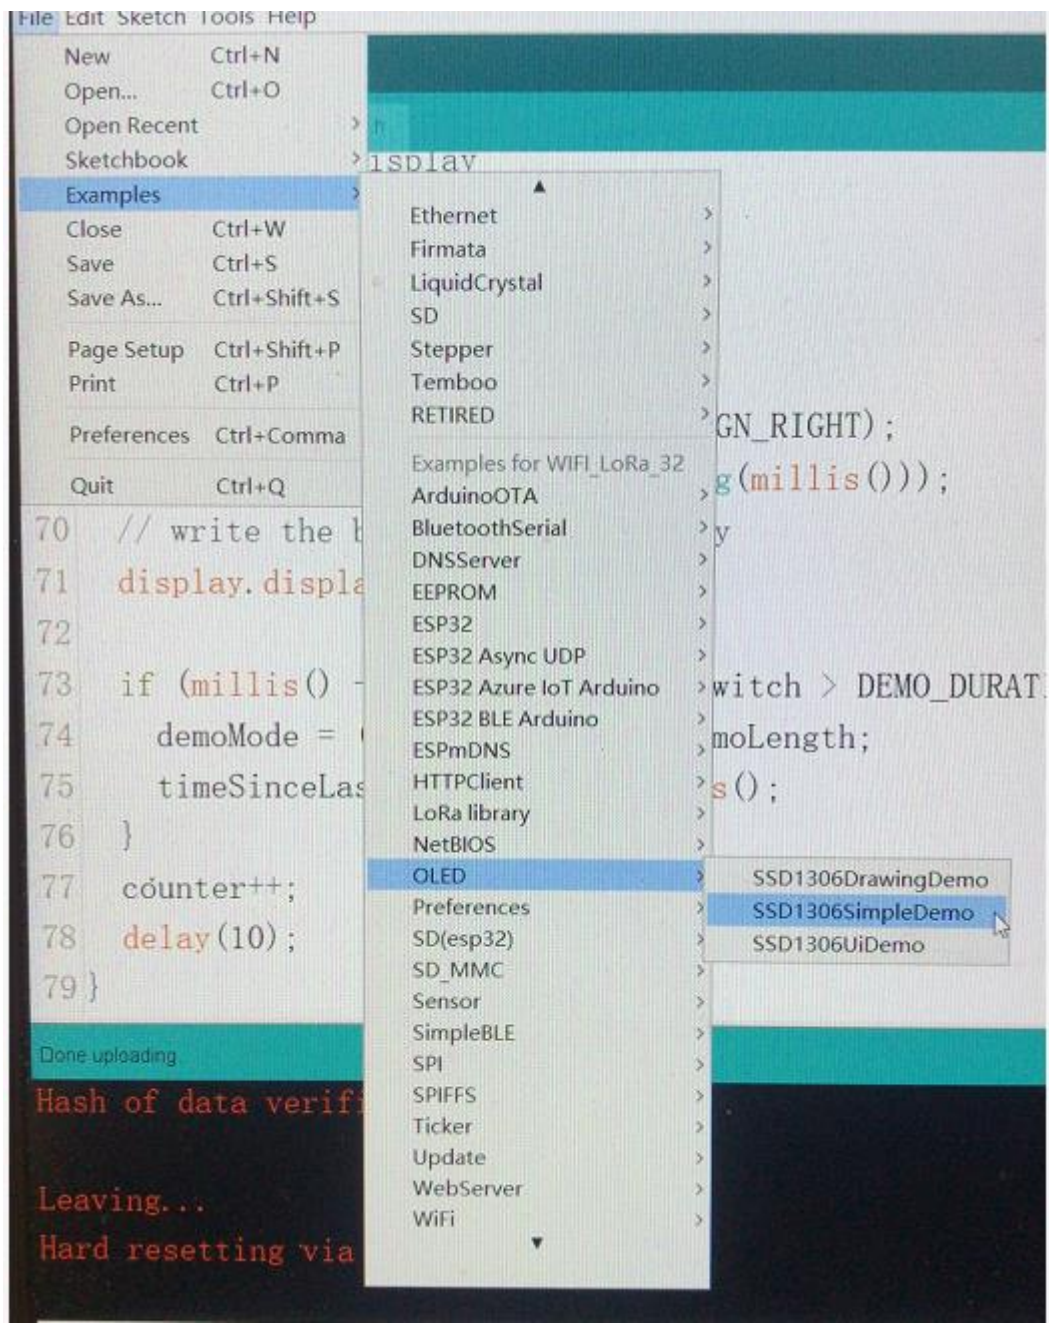

## Mise en oeuvre de l'ecran LCD.

### 1. Configure l'environnement

[https://github.com/Heltec-Aaron-Lee/WiFi\\_Kit\\_series/tree/master/InstallGuide](https://github.com/Heltec-Aaron-Lee/WiFi_Kit_series/tree/master/InstallGuide)

### 2. Tester le code

### 3. Changer le code

```
48 void drawFontFaceDemo() {
49     // Font Demo1
50     // create more fonts at http://oleddisplay.com
51     display.setTextAlignment(TEXT_ALIGN_LEFT);
52     display.setFont(ArialMT_Plain_10);
53     display.drawString(0, 0, "Hello world");
54     display.setFont(ArialMT_Plain_16);
55     display.drawString(0, 10, "GUO CHAO");
56 }
57
58 Demo demos[] = {drawFontFaceDemo};
59 int demoLength = (sizeof(demos) / sizeof(Demo));
60 long timeSinceLastModeSwitch = 0;
61
```

#### 4. Démonstration de performance
